Bulletin A-134-K August 2007

Pressure Blower (Direct Drive)

**Series 07
Arrangement 4**

ABS Certificate
of Design Assessment
Received

Radial-Blade Wheel

- **Application** – designed to meet general industrial air-moving requirements. Best suited for air laden with dust and grit. Pressure blowers work up to temperatures of 200°F.
- **Efficiency** – works economically up to static pressures of 14" W.G.
- **Performance** – operates smoothly from free air to block-off without excessive pulsation and vibration.
- **Construction** – heavy gauge, welded, hot-rolled steel fan scroll and base. Materials are the same for all static pressure ranges.

Features

- **Sizes** – 11", 12" and 14" wheel diameters.
- **Arrangement** – Available in Arrangement #4 and #10.
- **Rotation** – clockwise and counterclockwise.
- **Discharges** – available discharges shown on page 3. **Rotatable in field.**
- **Easy installation** – packaged unit, ready for installation.
- **Fan housing** – fan housing, scroll, is constructed of continuously welded 14 gauge hot rolled steel.
- **Arrangement 4 motor base** – motor base constructed of 10 gauge, welded, hot rolled steel.
- **Arrangement 10 drive assembly** – shafts are turned, ground and polished, keyed at both ends. Belts are oil, heat and static resistant type. Motor, drive, and bearings are readily accessible for ease in wiring, installation, adjustment and lubrication.
- **Wheel** – cast aluminum, flat-blade radial wheel with excellent self-cleaning characteristics. Prevents material buildup on and around the wheel. Dynamically balanced for smooth operation.
- **Motor** – open end, drip proof are standard. Totally enclosed fan cooled and other special motors can be furnished upon request.
- **Surface coatings** – standard coating is an industrial grade enamel.

Hartzell Model Code

Certificates of Design Assessment are issued by the American Bureau of Shipping. The assessment is a representation by the Bureau as to the degree of compliance the design exhibits with applicable sections of the Rules. The certificates, by itself, do not reflect that the products are Type Approved.

How to Use Model Code Index:

EXAMPLE:

Assume a required performance of 400 CFM at 2.5" S.P.W.G., at standard conditions is required. Reading Rating table on page 5, we find Series 07 Pressure Blower with a 14" wheel diameter with 100% wheel width. 419 CFM at 2.5" S.P., 1750 RPM, 5 HP.

Open, protected motor enclosure. Motor horsepower required is 1; therefore, horsepower code is "H." Motor RPM required is 1750; therefore, motor RPM code is "3."

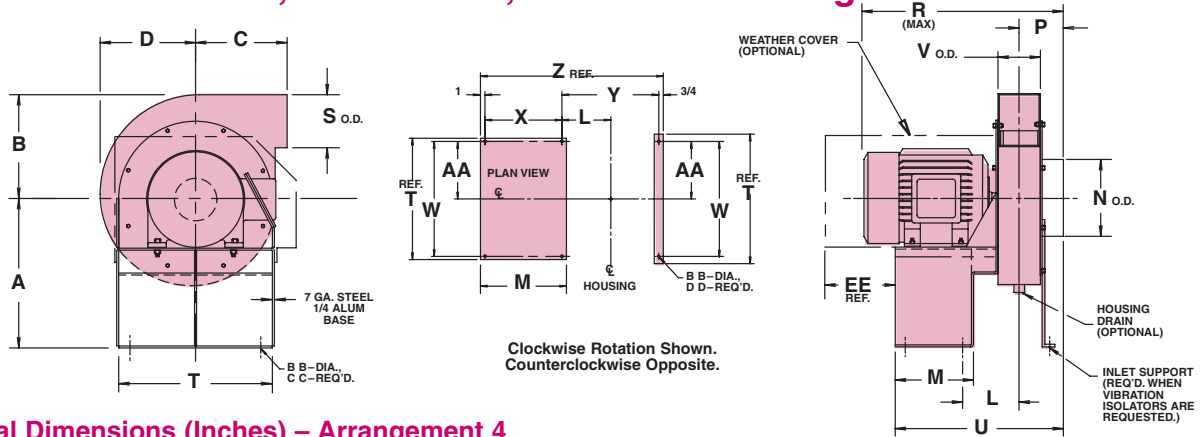

NOTE: All other informational fields must be filled with hyphens/dashes (-) if they are not applicable to the fan being considered.

This bulletin lists Hartzell's complete line of Pressure Blowers and accessories. More than 70 Hartzell offices can provide specific performance and installation data to meet your requirements. Call your Hartzell representative for assistance. Visit our website (www.hartzellfan.com) or call toll-free for the name of your Hartzell representative.

Performance certified for installation Type D: ducted inlet/ducted outlet.
Performance data is based on standard air conditions (0.075 #/ft.3) and constant speed.
Power ratings (BHP) excludes transmission losses.
Performance ratings do not include the effects of appurtenances (accessories).

To complete model code add material code ST, motor enclosure code, motor horsepower code, and motor speed code.
Refer to page 2 for additional model code information.

Performance certified for Installation Type D: ducted inlet/ducted outlet.
Performance ratings do not include the effects of appurtenances (accessories).
Performance is based on standard air conditions and constant speed.

Options & Accessories

Arrangement 4 with Weather Cover

Accessories

- **Drain pipe coupling** – 1" pipe coupling welded to housing at its lowest point; female pipe has threaded plug.
- **Weather cover Arrangement 4** – combines guarding of motor and drive as well as providing protection from the weather.
- **Combination drive guard weather cover Arrangement 10** – covers motor, drive sheaves, shaft and bearings, as well as belts. Combines guarding of the drive as well as protection from the weather for arrangement 10.
- **Inlet and outlet guards** – spiral ring guard offers protection on inlet side and a wire mesh guard can be furnished for the outlet side.
- **Coatings** – epoxy, inorganic zinc and catalyzed coal tar epoxy coatings are available upon request.
- **Inlet and outlet flanges** – drilled or undrilled.

CAUTION: The drive assembly or the periphery of the wheel of a fan less than seven (7) feet above the floor or working level must be guarded to be in accordance with OSHA regulations.

SAFETY ACCESSORIES, APPLICATION AND USE WARNING

The safe application and use of equipment supplied by Hartzell Fan, Inc. is the responsibility of the installer, the user, the owner, and the employer. Since the application and use of its equipment can vary greatly, Hartzell Fan, Inc. offers various product types, optional safety accessories, and sound performance data per laboratory tests. Hartzell Fan, Inc. sells its equipment with and without safety accessories, and accordingly, it can supply such safety accessories only upon receipt of an order. The need for safety accessories will frequently depend upon the type of system, fan location and operating procedures being employed. The proper protective safety accessories to meet company standards, local codes, and the requirements of the Occupation Safety and Health Act must be determined by the user since safety requirements vary depending on the location and use of the equipment. If applicable local conditions, standards, codes or OSHA rules require the addition of the safety accessories, the user should specify and obtain the required safety accessories from Hartzell Fan, Inc. and should not allow the operation of the equipment without them.

Owners, employers, users and installers should read "RECOMMENDED SAFETY PRACTICES FOR USERS AND INSTALLERS OF INDUSTRIAL AND COMMERCIAL FANS" published by the Air Movement and Control Association International, Inc., 30 West University Drive, Arlington Heights, Illinois 60004. A copy of this publication is enclosed with each fan shipped from Hartzell Fan, Inc., and is available upon request at Hartzell's office in Piqua, Ohio 45356. Please contact Hartzell Fan, Inc. or your local Hartzell representative for more information on product types, safety accessories, and sound performance estimates.

Remember, the selection of safety accessories and the safe application and use of equipment supplied by Hartzell Fan, Inc. is **your** responsibility.

Hartzell Warranty

LIMITED WARRANTIES

Hartzell represents to Buyer that any goods to be delivered hereunder will be produced in compliance with the requirements of the Fair Labor Standards Act of 1938 as amended.

Hartzell also warrants to Buyer its goods to be free from defects in workmanship and material under normal use and service for one (1) year after tender of delivery by Hartzell, plus six months allowance for shipment to approved stocking dealers and distributors. No warranty extends to future performance of goods and any claims for breach of warranty or otherwise accrues upon tender of delivery. The foregoing constitute Hartzell's sole and exclusive warranties and are in lieu of all other warranties, whether written, oral, express, implied or statutory.

LIMITATION OF LIABILITY FOR BREACH OF WARRANTY

Hartzell's obligation for any breach of warranty is limited to repairing or replacing, at its option, without cost to Buyer at its factory any goods which shall, within such a warranty period, be returned to it with transportation charges prepaid, and which its examination shall disclose to its satisfaction to have been defective. Any request for repair or replacement should be directed to Hartzell Fan, Inc., P.O. Box 919, Piqua, Ohio 45356. Hartzell will not pay for any repairs made outside its factory without its prior written consent. This does not apply to any such Hartzell goods which have failed as a result of faulty installation or abuse, or incorrect electrical connections or alterations, made by others, or use under abnormal operating conditions or misapplication of the goods.

LIMITATION OF LIABILITY

To the extent the above limitation of liability for breach of warranty is not applicable, the liability of Hartzell on any claim of any kind, including negligence, for any loss or damage arising out of or connected with, or resulting from the sale and purchase of the goods or services covered by these Terms and Conditions of Sale or from the performance or breach of any contract pertaining to such sale or purchase or from the design manufacture, sale, delivery, resale, installation, technical direction installation, inspection repair, operation or use of any goods or services covered by these Terms and Conditions shall, in no case exceed the price allocable to the goods or services which gave rise to the claim and shall terminate one year after tender of delivery of said goods or services, plus six months allowance for shipment to approved stocking dealers and distributors. In no event will Hartzell be responsible or liable for any labor or other incidental costs associated with the removal or replacement of defective products or materials.

In no event whether as a result of breach of contract, or warranty or alleged negligence, defects, incorrect advice or other causes, shall Hartzell be liable for special or consequential damages, including, but not limited to, loss of profits or revenue, loss of use of the equipment or any associated equipment, cost of substitute equipment, facilities or services, down time costs, or claims of customers of the Buyer for such damages. Hartzell neither assumes nor authorizes any person to assume for it any other liability in connection with the sale of its goods or services.

NO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS

HARTZELL DOES NOT WARRANT THAT SAID GOODS ARE OF MERCHANTABLE QUALITY OR THAT THEY ARE FIT FOR ANY PARTICULAR PURPOSE. THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY AND THERE IS NO IMPLIED WARRANTY OF FITNESS.
